

**Our Mission Statement...**

To be regarded by manufacturers around the world as the most valuable supply chain partner in the electronic component market.

**"Women Owned Source for Electronic Components"**

Cage code: 1MPH7 • Duns No: 834691537

Able Electronics is a reliable supplier to branches of the military including the U.S. Army, Navy and Air Force. We are a contractor for the U.S. Department of Defense, registered with CCR.

**Servicing the electronic industry for over 25 years**

- Able Electronics is registered and a contractor for the U.S. Department of Defense.
- As your "Supply Chain Partner", we help keep your production lines moving when facing shortages, extended lead times and obsolescence.
- To ensure quality, full documentation, traceability, manufactures cert / recertification, product de-lidding, die-verification and military approved testing is available.
- Able's Asset Recovery Programs provide a valuable advantage in managing your Excess Inventory.
- Receive the benefits of working with a "Woman Owned Company"
- ISO 9001-2000 Compliant
- We accept all government credit cards

**Military - Industrial - Commercial - Aerospace**

We stock a wide range of electronic components for all manufacturers listed below.  
We also carry a large supply of hardware, such as nuts, bolts, screws, standoffs, spacers, etc.

**Active/Semiconductors**

Able Electronics is dedicated to sourcing and supplying the parts you need to keep your product lines moving, and your aircrafts in the air.

### Our Services Include:

- Management and repair and overhaul services.
- Fixed wing and helicopter spares both military and commercial.
- Engine, airframe and undercarriage components.
- Avionics, communications and electronic equipment.
- Greases, Lubricants, Chemicals, sealants and oils.
- Hardware, fasteners, Seals and bushings.
- Paints, activators and dopes.
- Protective gear, flight clothing, life support and survival equipment.
- Raw materials, metals, alloys, steel, and exotic materials.
- Weapons parts and components.
- Ground support equipment and maintenance tooling.
- Board level electronic components.
- Connectors and wire harnessing.
